

## 910 Bright-White Satin Cloth

### Description:

910 is a water-resistant, bright-white, semi-sheer satin cloth. The image-side is a universal coating designed to work equally well on piezo and thermal inkjet printers, with dye and pigment inks.

### Physical Properties

Caliper	6 mil
Opacity	>80%
Whiteness	>120
Material	Terylene
Weight	118 g/m <sup>2</sup>

### Features

- Dye and pigment ink compatible
- Wide color gamut
- Water-resistant
- Unique look and feel

### Applications

- Banners
- Window shades
- Back-lit graphics

### Sizes and Item Nos.

#### Rolls

Width (in.)	Length (ft.)	Cat. No.
36	60	91036060
42	60	91042060
50	60	91050060
60	60	91060060

### Finishing

No finishing required, although a clear fixative may be applied to enhance certain areas of the print.

### Handling

- Store unused media in its original packaging
- Before use, allow media to acclimate to the environment
- Avoid touching the printable side without cotton gloves
- Allow media to dry thoroughly before any secondary operations
- Do not allow the printed surface to come in contact with itself

### Optimal Service Printing Environment

Temperature	60-80° F (15-26° C)
Relative Humidity	50%

### End-use Condition

Temperature	0-300° F
-------------	----------

### Storage Condition

Temperature	65-75° F (18-24° C)
Relative Humidity	40-60%

### Processing Tips

- Ink lay down not to exceed 300%
- For optimum result, use process black as opposed to composite black
- Heavy weight coated setting in most RIPs is appropriate.

### Color Profile

For more exacting color, it is recommended to develop custom profiles for a given ink/media/printer combination.
